PO Creation User Guide

A Step-by-Step Playbook for the Template

Critical Requirement:
All fields are mandatory.
Incomplete forms will not be processed.

Phase 1:
Core Setup
(Steps 1-3)
Phase 2:
Financials
(Steps 4-6)
Phase 3:
Delivery
Logistics
(Step 7)
Phase 4:
Line Items
(Steps 8-12)
Phase 5:
Submission
(Steps 13-14)

Step 1: Select Region

Use the drop-down to select the appropriate region.

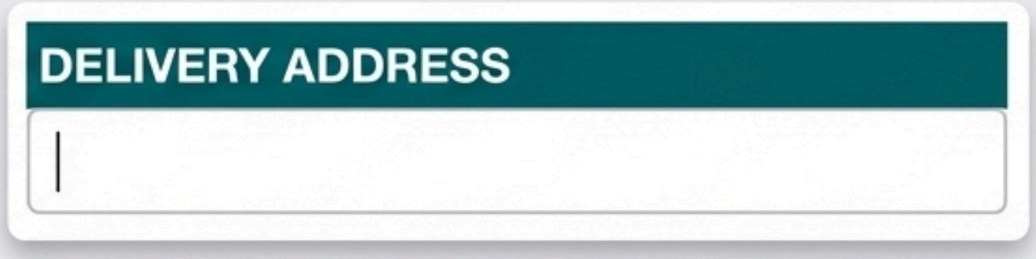

Step 2: Select Vendor

Identify and select the correct vendor using the master data file.

Vendor Master Data Lookup - Power BI

Step 3: Delivery Address

Input the full delivery address (Plant Code) into the designated field.

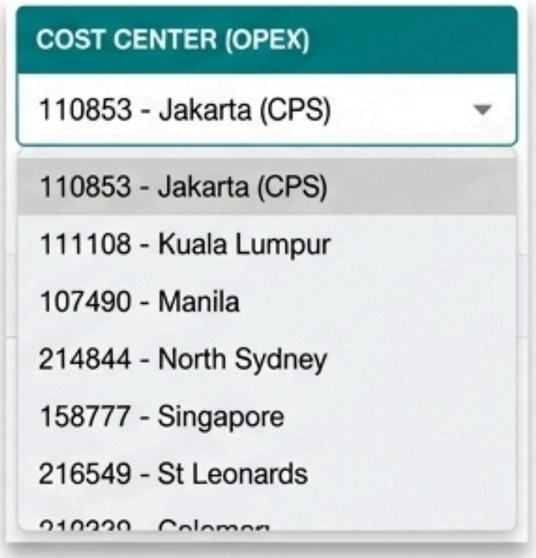

Step 4: Specify Payment Type

Path A: Cost Center (OPEX)

Auto-populates based on the selected region.

Select from the dropdown or enter manually if unlisted.

Path B: WBS Element (CAPEX)

Manual entry required.

Pro-Tip:

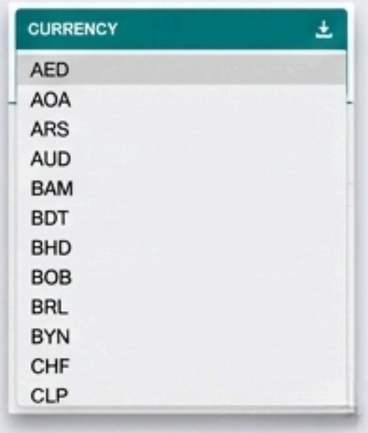

WBS values must always end with “90XXX” or “00XXX’ (e.g., E-00000123-90000).

Step 5: Vendor Email

Input the vendor’s contact email.

Step 6: Currency

Choose from the dropdown or enter manually.

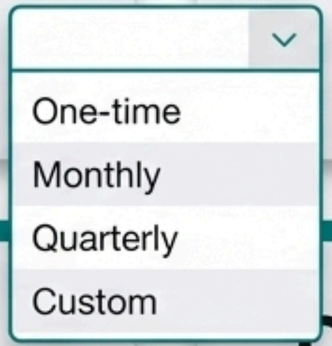

Step 7: Specify PO Frequency

One-time

For a single delivery.

Monthly

For regular monthly deliveries.

Quarterly

For deliveries every 3 months.

Custom

For irregular deliveries (e.g., 2, 3, or 4 times per year).

Standard Delivery Formats

One-Time Delivery

Start Date and End Date must be exactly the same.

START DELIVERY DATE	END DELIVERY DATE
January 31, 2026	January 31, 2026

Monthly Delivery

Enter the period range.
Start Date = First Delivery.
End Date = Last Delivery

START DELIVERY DATE	END DELIVERY DATE
January 31, 2026	December 31, 2026

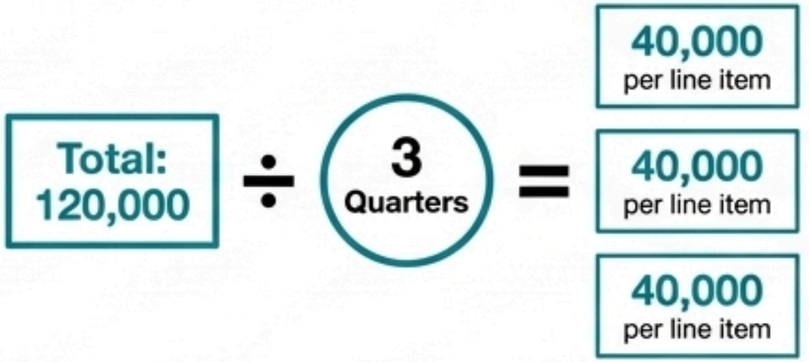

Spans full duration

Quarterly Delivery

The total PO amount must split equally across selected quarters.

Add a separate line for each quarter and indicate the period in the description.

DESCRIPTION	QUANTITY	UNIT PRICE	TOTAL
Office Drinks (Jan - Mar)	1	40,000	40,000.00
Office Drinks (Apr - Jun)	1	40,000	40,000.00
Office Drinks (Jul - Sep)	1	40,000	40,000.00

Custom / Irregular Delivery

Critical Rule: Do NOT enter any dates in the Start/End Delivery Date fields.

TYPE	WBS GL Code	COST CENTER GL Code	START DELIVERY DATE	END DELIVERY DATE	DESCRIPTION	COST CENTER	QUANTITY	UNIT PRICE	TOTAL
Office Supplies	E5000	E5001			Office Supplies - Delivery required on 15-Jan, 10-Jun, and 20-Nov	E5001	1	40,000	40,000.00

Step 8: PO Title

Provide a clear, descriptive title.

PURCHASE ORDER TITLE

Coca cola Purchasing

If Using Cost Center

GL codes auto-populate based on Service/Goods selection. Choose from the dropdown or enter manually.

TYPE	COST CENTER GL Code
Service	

60301100 - Ongoing Prof Services-Fees Set by KO
63000000 - Rent-Facilities
63004400 - Custodial Services
63004700 - Facilities Management Services
63004800 - Security Services
63007600 - Repair & Maint-Buildings/Plants
63009100 - Postage

If Using WBS Element

The GL code fills in completely automatically based on your WBS code. No manual entry is necessary.

TYPE	WBS GL Code
Goods	67020200 - Fixed Asset Non-Production Clearing

Step 10: Fill in Remaining Details

DESCRIPTION	COST CENTER	QUANTITY	UNIT PRICE	TOTAL
Office Drinks for Employees		1	1000	1,000.00

1. Description of item/service

2. Quantity required

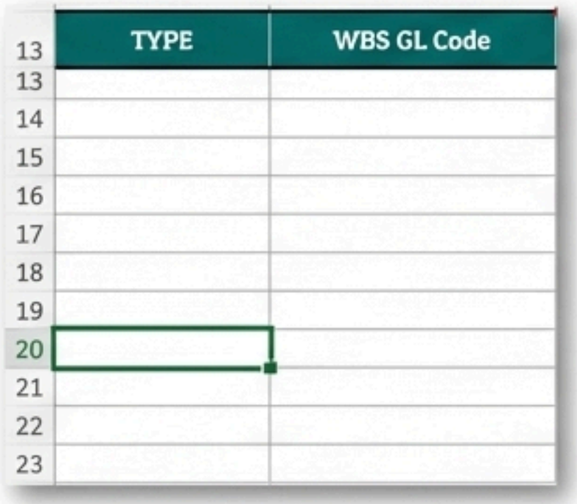

3. Unit Price

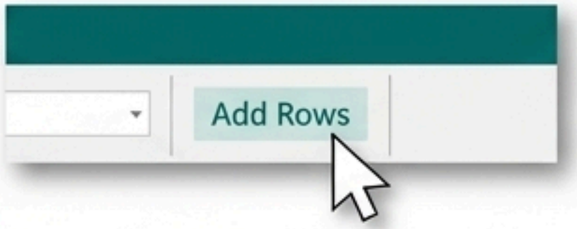

Step 11: Multiple Line Items

Simply repeat Steps 9 and 10 on the subsequent rows for each additional item in your order.

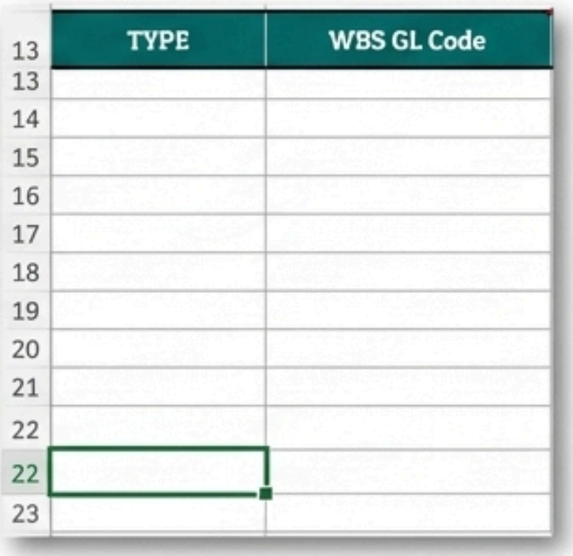

Step 12: Adding Bulk Line Items (Over 10 Lines)

1. Select any cell between Row 14 and Row 23 in Column A.
2. Click the “Add Rows” option in the file.
3. Enter the number of extra rows needed.
4. Fill in the newly generated rows.

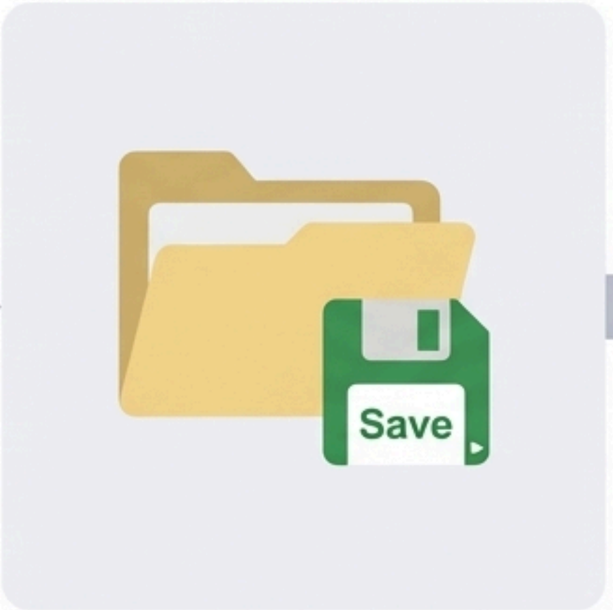

Maximum Capacity: Do not exceed 100 line items per PO.

Step 13: Submit, Save, and Send

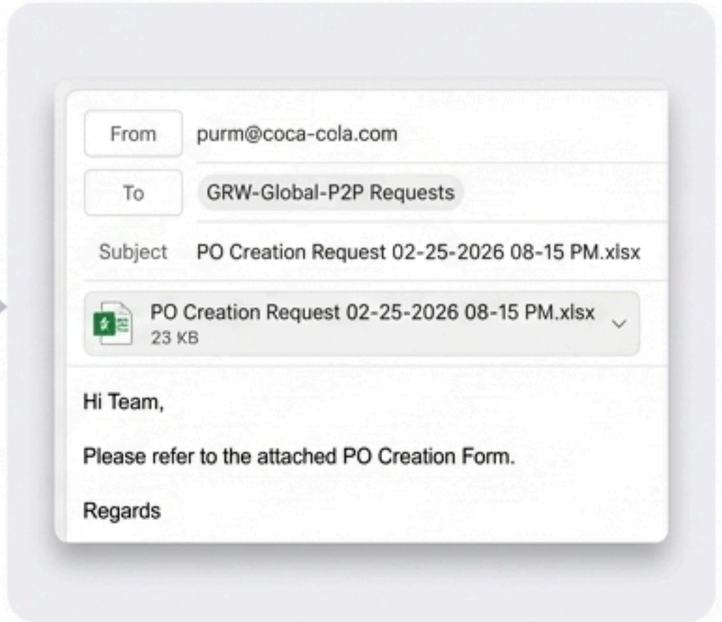

1. Click the “Send Email” button on the form.

2. The system will prompt you to save the completed file locally.

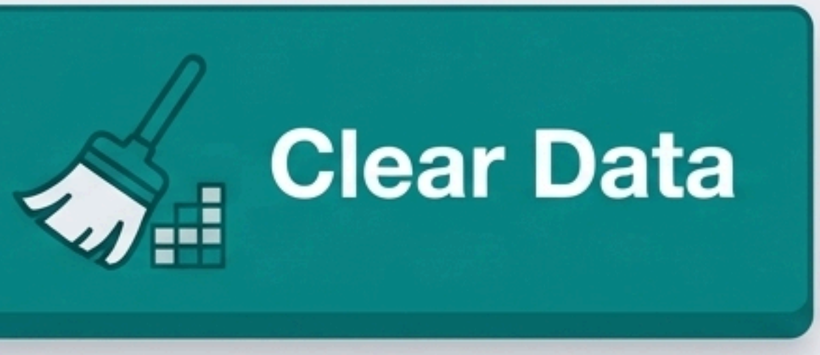

3. Outlook automatically generates a draft email addressed to the GRE mailbox, with the PO attached.

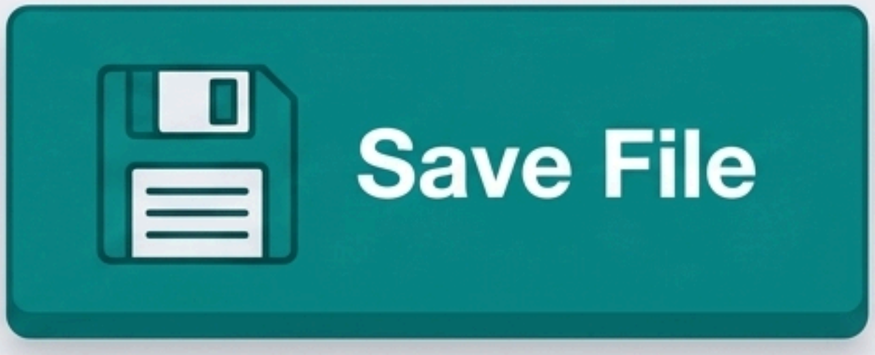

4. Double-check the attachment, add any necessary CCs, and click **Send**.

Step 14: Reusing the Template

1. Clear Data

Click the ‘Clear Data’ option in the interface to remove all current entries and reset the formulas.

2. Save Changes

Save the empty file so the pristine template is ready for your next PO request.

The Golden Rules of PO Creation

Completeness. Every single field is mandatory. Incomplete forms are automatically rejected.

WBS Formatting. WBS Elements must exclusively end in “90XXX” or “00XXX”.

Quarterly Math. Total amounts must be divided perfectly by the number of quarters.

Custom Dates. Never put dates in the main start/end fields for custom frequencies; use the description field only.

System Limits. Never exceed 100 line items on a single template.
